

## Vietnam - Saigon Mission

November 1<sup>st</sup> Saturday – November 8<sup>th</sup> Saturday

This mission is designed to bring medical/dental care to the small city of Tay Ninh in the Southern Highlands of Vietnam. We will be working at the local public hospital and co-provide medical/dental care to the poor in association with the local doctors. It is normal for this hospital to see 1000 cases a day. Besides our normal medical & dental teams, we will bring an orthopedic surgical team. At the end of our mission we will have R&R in Saigon.

Vietnam is one of the best travel destinations in the world today. The country is vibrating with energy and is 2<sup>nd</sup> only to China in economic growth (over 8% a year). This mission will appeal to those who may have been to 'Nam during the war and those who want to show the Vietnamese people the positive character of Americans.

On our pre-mission trip, November-2008, we found the Vietnamese people friendly, hospitable, hopeful and more than willing to working side-by-side with American doctors
